The data contained in this report comes from the State Fire Marshal's (SFM) California All Incident Reporting System (CAIRS) data warehouse. These emergency incident statistics are based only upon information submitted to the SFM by participating California fire departments. Please note that apparent variations in incident counts may be solely due to fluctuations in the amount of data submitted to the State Fire Marshal. And while the incoming data is validated according to logical data according to logical data rules, individual data elements are not always verified for accuracy.
